Consent to Participate in Internet Research

Health and Relationships Project (HARP)
You are eligible to participate in the follow-up study for the Health and Relationships Project (HARP). Please read the information below before continuing with the survey. **STUDY GOAL:** The major goal of this study is to understand how marital status influences health over time. **YOUR PARTICIPATION:** 1. You will complete a 35 to 40 minute online questionnaire (which will follow this form). 2. You will be asked to fill out a short online survey (about 10 minutes to complete) each evening for 10 days. You can schedule this later. Most people report that talking about their experiences is a positive exercise for them. However, since all people experience bad times as well as good times, some questions may remind you of difficult experiences you have had. If you experience discomfort, please call 512-348-8977 or email us at health@austin.utexas.edu. We have also created a "Resources" page on our website (www.liberalarts.utexas.edu/health-relationships-lab) with a list of agencies and contacts that may be helpful. **GIFT CARD:** You will receive a $100 gift card after you complete both today's survey and the short daily questionnaires. **CONFIDENTIALITY:** All information from the questionnaires will be completely confidential. We will share your data or samples with other researchers for future research studies that may be similar to this study or may be very different. The data or samples shared with other researchers will not include information that can directly

identify you. Authorized persons from The University of Texas at Austin, members of the Institutional Review Board and the National Institute on Aging have the legal right to review your research records and will protect the confidentiality of those records to the extent permitted by law. **PROTECTIONS:** This study has been reviewed and approved by The University Institutional Review Board and the study number is 2016-03-0101. For questions about your rights or dissatisfaction with any part of this study, you can contact, anonymously if you wish, the Institutional Review Board by phone at (512) 232-1543 or email at irb@austin.utexas.edu. Your participation is entirely voluntary. If at any time you would like to stop filling out the survey, you are free to do so and may close your browser. You may refuse to answer any question in the survey. Your decision about whether to participate in this study will not affect your health care benefits or eligibility for services, or your future relations with the University of Texas. If you have a question at any time while taking the survey or after you participate, you may contact us at 512-348-8977 or health@austin.utexas.edu. You may also visit our website at www.liberalarts.utexas.edu/health-relationships-lab or send mail to Dr. Debra Umberson, Population Research Center, 305 E. 23rd St., Stop G1800, Austin, TX, 78712. ***Please print a copy of this information to keep for your records.***

Statement of Consent You are now making a decision about whether or not to participate in this study. By clicking the consent statement below, you indicate that you have read the information above and decided to participate. If you do not understand what you have read in this document, do not proceed. Please contact us to explain anything you do not understand. You may decide to stop taking the survey at any time during the survey. If you understand the above information and agree to this statement of consent, please click the circle below to proceed.
