Research Manager, Future of Nursing 2030

Award Amount: \$75,000

Purpose: To assist the expert committee appointed by the National Academy of Medicine in their deliberations as they author and release the *Future of Nursing 2030* report by early 2020.

Role: Research Manager

Responsibilities: (1) quickly responding to questions from the committee (e.g., drafting reports/tables/literature reviews, coordinating new research to generate data as needed); (2) participating in a series of group calls where we share expertise, familiarity with existing literature, and knowledge of others' expertise and work who could inform key questions raised by the committee; (3) provide feedback on draft papers, issue briefs, and other documents.
