

Andrew D. Gaudet, Ph.D.

Department of Psychology | University of Texas at Austin
Austin, TX 78712
GaudetLab.com
andrew.gaudet@utexas.edu

EDUCATION

Ph.D., Zoology/Neuroscience, University of British Columbia, Vancouver, B.C.	2010
B.Sc., Cell Biology and Genetics, University of British Columbia, Vancouver, B.C.	2003
First year life sciences, University of Toronto, Toronto, ON	2000

PROFESSIONAL APPOINTMENTS

Assistant Professor, Psychology, The University of Texas at Austin	2018 - present
Department of Neurology (by courtesy)	2018 - present
Institute for Neuroscience, College of Natural Sciences	2018 - present

Postdoctoral Researcher, Psychology & Neuroscience, University of Colorado Boulder, Boulder, CO	2015 - 2018
Postdoctoral Fellow, Neuroscience, Ohio State University, Columbus, OH	2011 - 2014

PUBLICATIONS

Peer-Reviewed Journal Articles (including Accepted and In-Press)

1. Gaudet AD, Fonken LK, Ayala MT, D'Angelo HM, Smith EJ, Bateman EM, Schleicher WE, Maier SF, Watkins LR. Spinal cord injury in rats dysregulates diurnal rhythms of fecal output and liver metabolic indicators. *Journal of Neurotrauma*. 2019. 36(12):1923-1934. PMID: 30501584
2. Gaudet AD, Fonken LK, Ayala MT, Bateman EM, Schleicher WE, Smith EJ, D'Angelo HM, Maier SF, Watkins LR. Spinal cord injury in rats disrupts the circadian system. *eNeuro*. 2018; 21;5(6). pii: ENEURO.0328-18.2018. PMID: 30627655
- Covered in press: [UT press release](#); [Science Daily](#); [Sleep Review](#); [The Spin magazine](#)
3. Fonken LK, Frank MG, Gaudet AD, Maier SF. Stress and aging act through common mechanisms to elicit neuroinflammatory priming. *Brain, Behavior, and Immunity*. 2018;73:133-148. PMID: 30009999
4. Gaudet AD, Fonken LK. Glial cells shape pathology and repair after spinal cord injury. *Neurotherapeutics*. 2018;15(3):554-577. PMID: 29728852
5. Fonken LK, Frank MG, Gaudet AD, D'Angelo HM, Daut RA, Hampson EC, Ayala MT, Watkins LR, Maier SF. Neuroinflammatory priming to stress is differentially regulated in male and female rats. *Brain, Behavior, and Immunity*. 2018;70:257-267. PMID: 29524458

6. Bateman EM, Schleicher WE, Smith EJ, Sweet DR, Gaudet AD. Journal Club: MRI reveals acute inflammation in cortical lesions during early MS. *Neurology*. 2018;90:e724-726. PMID: 29459454
7. Gaudet AD, Fonken LK, Watkins LR, Nelson RJ, Popovich PG. MicroRNAs: Roles in regulating neuroinflammation. *Neuroscientist*. 2018;24(3):221-245.. PMID: 28737113
8. Gaudet AD, Ayala MT, Schleicher WE, Smith EJ, Bateman EM, Maier SF, Watkins LR. Exploring acute-to-chronic neuropathic pain in rats after contusion spinal cord injury. *Experimental Neurology*. 2017;295:46-54. PMID: 28552717
9. Gaudet AD, Mandrekar-Colucci S, Hall JCE, Sweet DR, Schmitt PJ, Xu X, Guan Z, Mo X, Guerau-de-Arellano M, Popovich PG. miR-155 deletion in mice overcomes neuron-intrinsic and -extrinsic barriers to spinal cord repair. *Journal of Neuroscience*. 2016;36(32):8516-8532. PMID: 27511021
10. Fonken LK, Kitt MM, Gaudet AD, Barrientos RM, Watkins LR, Maier SF. Diminished circadian rhythms in microglia may contribute to age-related neuroinflammatory sensitization. *Neurobiology of Aging*. 2016;47:102-112. PMID: 27568094
11. Jablonski K, Gaudet AD, Amici S, Popovich PG, Guerau-de-Arellano M. Control of the macrophage inflammatory transcriptional signature by miR-155. *PLoS ONE*. 2016;11(7):e0159724. PMID: 27447824
12. Gaudet AD*, Fonken LK*, Gushchina LV, Aubrecht TG, Maurya SK, Periasamy M, Nelson RJ, Popovich PG. miR-155 deletion in female mice prevents diet-induced obesity. *Scientific Reports*. 2016;6:22862. PMID: 26953132 * Contributed equally.
- Covered in press: Ohio State press release; [Food Navigator](#)

GRANT SUPPORT

Gaudet, A. D. (PI). "Novel circadian-metabolic strategies for enhancing spinal cord injury repair." TIRR Foundation – John M. O'Quinn Foundation Emergency Funding Research Award. 2020.

Gaudet, A. D. (PI). "Inhibiting miR-155 in mice to improve spinal cord injury repair." Wings for Life Foundation. Project Grant. 2016-2021.

Maier, S. F. (PI); Gaudet, A. D. (contributor). "microRNA-155 is a novel target for ameliorating SCI-induced neuropathic pain and locomotor deficits." Craig H. Neilsen Foundation. Pilot Grant. 2016-2019.

Popovich, P. G. (PI); Gaudet, A. D. (contributor). "miRNA regulation of macrophages after spinal cord injury." National Institutes of Health (NIH). R21. 2012-2014.

Popovich, P. G. (PI); Gaudet, A. D. (contributor). "miRNA regulation of macrophage inflammation after spinal cord injury." International Foundation for Research on Paraplegia (IRP). Basic Research Grant. 2012-2014.

Gaudet, A. D. (PI). "Improving the immune response to spinal cord injury using galectin-1." Canadian Institutes for Health Research (CIHR). Postdoctoral Fellowship. 2011-2014.

Gaudet, A. D. (PI). "Role of galectin-1 in regeneration and repair following nerve injury." Michael Smith Foundation for Health Research & Rick Hansen Man in Motion Fund. Senior Graduate Studentship. 2006-2008.

Gaudet, A. D. (PI). "Galectin-1 as an enhancer of peripheral and central regeneration of primary afferent axons." Natural Sciences and Engineering Research Council of Canada (NSERC). Postgraduate Scholarship, Doctoral. 2004-2007.

MacLean Fraser Memorial Research Award

Awarded to: Andrew Gaudet

Agency: University of British Columbia. Type: Graduate Student Entrance Scholarship. Period: 2003
Selected for excellence in both research and academics during undergraduate years

AWARDS AND HONORS

2020	The Rising Innovator Award, Transnetyx
2020-21	College Research Fellowship Award, COLA, University of Texas at Austin
2019	Summer Research Assignment, Graduate School, University of Texas at Austin

Teaching Awards and Honors

2010	Killam Teaching Award Committee Member, University of British Columbia
2009	Graduate Teaching Assistant Teaching Award, University of British Columbia

Top Poster Awards

2013 Ohio State University Neuroscience Research Day, Columbus, OH
2010 Disabilities Health Research Network Conference, Vancouver, BC

Conference Travel Awards

2008, 2009 Disabilities Health Research Network (DHRN)
2007 International Brain Research Organization (IBRO) Congress, Melbourne, Australia
Several years International Symposium on Neural Regeneration, Asilomar, CA
2004 Asian Pacific Symposium on Neural Regeneration, Osaka, Japan

PRESENTATIONS

Invited presentations

“Spinal cord injury elicits neuroinflammation and circadian-metabolic disruption.” Department of Psychology and Neuroscience, Baylor University, Waco, TX. October 2020 (online).

“Spinal cord injury elicits neuroinflammation and circadian-metabolic disruption.” Department of Neuroscience, University of Kentucky, Lexington, KY. September 2020 (online).

“Spinal cord injury elicits neuroinflammation, neuropathic pain, and circadian disruption: Implications for repair and recovery.” International Online Spinal Cord Injury Seminars (I-OSCIRS). May, 2020 (online). >800 views on YouTube.

“Spinal cord injury elicits neuroinflammation and circadian disruption: Implications for repair and recovery.” Immunology Research Interest Group, University of Texas at Austin. Austin, TX. April, 2020 (online).

“Modulating neuroinflammatory dynamics to improve nervous system repair.” Department of Psychology, University of Texas at Austin. Austin, TX. September 2017.

“Modulating neuroinflammatory dynamics to improve nervous system repair.” Department of Medicine. University of Alberta. Edmonton, AB. May 2017.

“Modulating neuroinflammatory dynamics to improve nervous system repair.” Department of Psychology. Texas A&M. College Station, TX. March 2017.

“Modulating neuroinflammatory dynamics to improve nervous system repair.” Department of Clinical Neurosciences. University of Calgary. Calgary, AB. September 2016.

“Using the immune system to resolve paralysis and pain after spinal cord injury.” Postdoctoral Research Symposium. University of Colorado. Boulder, CO, 2016.

Outstanding Postdoc Award Finalist.

“Role of galectin-1 in sensory neuron development and peripheral nerve repair.” Division of Neuroscience & Experimental Psychology. University of Manchester. Manchester, UK. January 2007.

“Role of galectin-1 in sensory neuron development and peripheral nerve repair.” Department of Neuroscience. Queen Mary University of London. London, UK. January 2007.

Conference presentations

“Wallerian Degeneration: early and late events following complete axotomy.” 2020 Reconstructive Neurosurgery Course: Nerve Injury: Histology, Neurophysiology, Imaging and Surgery. M.I.T., Boston, MA. October 2020 (online).

“Novel neuroimmune strategies for improving axon plasticity and spinal cord repair.” CNS Neuroregeneration Strategies Symposium. Houston Methodist. Houston, TX. March 2017.

“Effects of spinal cord injury on rat circadian function.” Annual Colorado Sleep and Circadian Research Symposium. University of Colorado Boulder. Boulder, CO. June 2016.

“microRNA-155 deletion improves spinal cord repair.” International Symposium for Neural Regeneration. Pacific Grove, CA. December 2015.

“microRNA-155 deletion alters inflammation and axon growth: Implications for spinal cord repair.” Spinal Research Trust Meeting. London, UK. September 2014.

“Regeneration of peripheral nerves following injury.” International Brain Research Organization School of Neuroscience Workshop. University of British Columbia. Vancouver, BC. May 2009.

Conference Proceedings (Selected)

1. Lee SE, Park SH, Gaudet AD (2020) The thermal preference test: A novel behavioral assay that incorporates nociceptive and affective components of SCI-elicited neuropathic pain. (International Symposium on Neural Regeneration, Asilomar, CA)
2. Gaudet AD (2019) Manipulating biological clocks to improve post-SCI metabolic function. (Texas Society for Circadian Biology & Medicine Meeting, College Station, TX)
3. Gaudet AD (2019) Manipulating biological clocks to improve post-SCI metabolic function. (SCI2020 Meeting, NIH, Washington, D.C.)
4. Gaudet AD, Ayala MT, Maier SF, Watkins LR (2018) Inhibiting microRNA-155 in mice to improve SCI repair. (Wings for Life Meeting, Salzburg, Austria)
5. Gaudet AD, Fonken LK, Ayala MT, Bateman EM, Schleicher WE, Smith EJ, D’Angelo HM, Maier SF, Watkins LR (2017) Spinal cord injury in rats perturbs circadian rhythms. (International Symposium on Neural Regeneration, Asilomar, USA)
6. Gaudet AD, Ayala MT, Fonken LK, Maier SF, Watkins LR (2016) Spinal cord injury in rats disrupts bowel function and daily activity rhythms. (Society for Neuroscience Annual Meeting, San Diego, USA)
7. Gaudet AD, Schmitt PG, Xu X, Hargrove A, Sweet DR, Guan Z, Guerau-de-Arellano M, Popovich PG (2014) MicroRNA-155 deletion restricts inflammatory signaling in macrophages and enhances axon growth capacity: implications for spinal cord repair. (Spinal Research Trust Meeting, London, UK)
8. Gaudet AD, Schmitt PG, Hargrove A, Guerau-de-Allerano M, Popovich PG (2013) The inflammatory microRNA miR-155 drives macrophage-mediated neurotoxicity and neurite outgrowth inhibition. (International Symposium on Neural Regeneration, Asilomar, USA)
9. Gaudet AD, Polinski NK, Sweet DR, Guan Z, Popovich PG (2012) Are galectins good for the injury microenvironment? Spinal cord injury-induced expression of galectin-1 in macrophages and astrocytes. (Society for Neuroscience Annual Meeting, New Orleans, USA)

10. Gaudet AD, Leon G, Rowen R, Kadoya T, Horie H, Poirier F, Ramer MS (2009) A peripheral perspective: Exploring galectin-1's role in axon regeneration. (International Symposium on Neural Regeneration, Asilomar, USA)
11. Gaudet AD, Bennett JL, Duncan S, Ramer MS (2008) A peripheral role for galectin-1: implications in the immune response to axotomy. (Society for Neuroscience Annual Meeting, Washington, D.C.)
12. Gaudet AD, Ramer LM, Cragg JJ, Ramer MS, Nakonechny J (2008) Group learning in developmental neurobiology: relationships between attitudes surrounding group learning and course achievement. (Society for Neuroscience Annual Meeting, Washington, D.C.)
13. Gaudet AD, Bennett JL, Kadoya T, Horie H, Poirier F, Tetzlaff T, Ramer MS (2007) Galectin-1 facilitates macrophage accumulation in intact and injured peripheral nerves. (International Symposium on Neural Regeneration, Asilomar, USA)
14. Gaudet AD, Bennett JL, Kadoya T, Horie H, Poirier F, Tetzlaff T, Ramer MS (2007) The role of galectin-1 in macrophage accumulation following peripheral nerve injury. (IBRO World Congress of Neuroscience, Melbourne, Australia)
15. Gaudet AD, Horie H, Poirier F, Tetzlaff W, Ramer MS (2005) Mice lacking galectin-1 exhibit impaired macrophage responses following peripheral axotomy. (International Symposium on Neural Regeneration, Asilomar, USA)
16. Gaudet AD, Horie H, Poirier F, Tetzlaff W, Ramer MS (2004) Mice lacking galectin-1 exhibit diminished macrophage invasion of the nervous system following peripheral axotomy. (Poster, Asia-Pacific Symposium on Regeneration, Osaka, Japan)

ADVISING AND STUDENT-RELATED SERVICE

Trainees

Sydney Lee, Psychology, 2020-present. (Supervisor).

Dissertation/Qualification Exam Committees

Sam Bazzi, Neuroscience, 2019-present. (Member).

Kevin Sanchez, Pharmacy, 2020-present. (Member).

Ruizhuo (Rachel) Chen, Pharmacy, 2020-present. (Member).

Undergraduate Honors Theses

Yegene Lee, Psychology, 2019-present. (Supervisor).

Undergraduate Trainees (Selected)

Sindy Peña, Workstudy Undergraduate Assistant, UT-Austin, 2019-present. (Supervisor).

Kulsoum Rizvi, Undergraduate, UT-Austin, 2019-present. (Supervisor).

Wendy Rojas, Undergraduate, UT-Austin, 2019-present. (Supervisor).

Paul Oancea, Undergraduate, UT-Austin, 2019-present. (Supervisor).

Sung-Hoon Park, Undergraduate, 2018-present. (Supervisor).

Lizz Loose, Undergraduate, 2019. (Supervisor).

Monica Ayala, Research Assistant, 2015-2018. (Supervisor).
Heather D'Angelo, Research Assistant, 2017-2018. (Supervisor).
Elana Smith, Undergraduate, 2015-2018. (Supervisor).
Emily Bateman, Undergraduate, 2015-2018. (Supervisor). Completed Honors.
Wolfgang Schleicher, Undergraduate, 2015-2018. (Supervisor). Completed Honors.
David Sweet, Undergraduate, 2012-2014. (Supervisor). Completed Honors.
Philipp Schmitt, Undergraduate, 2013-2014. (Supervisor).
Xinyang Xu, Undergraduate, 2013-2014. (Supervisor).
Nicole Polinski, Undergraduate, 2011. (Supervisor). Completed Honors.

Undergraduate Advising

Mentor, UTEAM, 2018-present. Mentee: Qusay Hussein

- Qusay is a junior in Psychology at UT, who was severely injured by a suicide bomb in his home country of Iraq. He plans to attend graduate school studying motivational psychology. I assisted Qusay in finding a lab that matched his interests and goals.

ADMINISTRATIVE AND PROFESSIONAL SERVICE

Departmental Service

Panelist, "The Art of Critiquing," Department of Psychology Bootcamp for incoming graduate students, August 20, 2020.
Panelist, "Navigating the Mentor-Trainee Relationship," Department of Psychology Bootcamp for incoming graduate students, August 19, 2020.
Co-creator/leader, Chronobiology Journal Club, University of Texas at Austin, 2018-present.
Creator/leader, Neuroimmunology Journal Club, University of Colorado, 2015-2018.
Creator/leader, Center for Brain and Spinal Cord Repair Trainee Seminar Series (CBSCR TSS), Ohio State University, 2012-2014.
Leader, Journal Club for CBSCR, Ohio State University, 2011-2014.

University and Local Service

Facilitator, "How to be a Graduate Student," Institute for Neuroscience (INS) Bootcamp for incoming graduate students, August 12, 2020.
Facilitator, "Finding your Mentor," Institute for Neuroscience (INS) Bootcamp for incoming graduate students, August 13, 2020.
Member, Immunology Research Interest Group, University of Texas at Austin, 2020-present.
Member, Spinal Cord Injury Research Interest Group, University of Texas at Austin, 2019-present.
Mentor and Supervisor, Neuroscience Studies Foundation Internship for female high school students from underprivileged backgrounds, University of Texas at Austin, 2019.
Co-Leader and Member, Chronobiology Journal Club, University of Texas at Austin, 2018-present.
Member, Neuroscience Education for Urban and Rural Outreach (NEURO), Ohio State University, 2012-2014.
Community-Based Project Leader to engage elementary school students in science, Vancouver, B.C., 2008-2009.
Community Learning Initiative Leadership Program (CLILP), University of British Columbia, Vancouver, B.C., 2008-2009.
Let's Talk Science Partnership Program Member, University of British Columbia, Vancouver, B.C., 2008-2009.
Big Brother, Big Brothers of Vancouver, Vancouver, B.C., 2003-2010.

Professional Service

Committee head, Trainee and Foundations Committee. International Online Spinal Cord Injury Seminars (I-OSCIRS). 2020-present

I-OSCIRS is a popular weekly YouTube seminar that is viewed by hundreds of SCI researchers, clinicians, and lay people. I have had a leading role in designing and refining the seminar series. As lead of this committee, I schedule and organize monthly trainee seminars and moderators.

Peer reviewer (ad hoc since 2010)

Journals: *Experimental Neurology*; *Journal of Neurotrauma*; *Brain, Behavior & Immunity*; *Scientific Reports*; *Journal of Neuroscience Research*; *Cellular and Molecular Life Sciences*; *Brain Research Bulletin*; *Oncotarget*; others.

Grant Reviewer: Wings for Life Foundation, annual grant reviews (2017-present).

Grant Reviewer: Veterans Affairs Committee, Spinal Cord Injury Disorders/Pain scientific review panel (twice per year; 2017-present).

Grant Reviewer, Early-career: National Institutes of Health, Clinical Neuroplasticity and Neurotransmitters scientific review panel (October 2020).

Professional Memberships

Society for Neuroscience, 2007-present

TIRR Foundation-Mission Connect, 2019-present

Society for Research on Biological Rhythms, 2019-present

Psychoneuroimmunology Society (PNIRS), 2018-present

Clinically Applied Rehabilitation Research and Engineering (CARE) Initiative, UT-Austin, 2019-present

TEACHING POSITIONS

Current Courses

“Biological Clocks and Behavior,” Department of Psychology, University of Texas at Austin. 2018, Spring 2020, Fall 2020.

- Upper-level undergraduate course focused on how the nervous and endocrine systems synchronize internal biological clocks to the external environment.

“Current Topics in Behavioral Neuroscience,” Department of Psychology, University of Texas at Austin. Fall 2019.

- Graduate-level seminar course with diverse expert speakers in the realm of behavioral neuroscience. I enabled engagement of students and trainees through participation in speaker introductions and in question periods.

“Neuroinflammation in Health and Pathology,” Department of Psychology, University of Texas at Austin. Spring 2019.

- Graduate-level seminar course with diverse speakers discussing neuroimmune mechanisms of pathology in pre-clinical and clinical research.

Past Teaching Experience

Instructor, Graduate Professional Development Class, University of Colorado Boulder. 2017.

Instructor, Principles of Neuroimmunology Class, MVIMG 750, Ohio State University. 2011, 2013.

Instructor, Fourth Year Developmental Neurobiology Course, University of British Columbia. 2008
(twice), 2009, 2010.

Instructor, Third Year Cell Physiology Course, University of British Columbia. 2010.

Teaching Assistant, First Year Human Physiology, University of British Columbia. 2004, 2005, 2007-
2009

Teaching Assistant, Third Year Cell Physiology, University of British Columbia. 2003-05.
